

Kadant Products

For more than a century, Kadant companies or their predecessors have been delivering smart and efficient solutions to process industries. As a global leader in fiber processing, fluid handling, water management, and doctoring systems, our products and technologies are used to improve productivity and enhance energy utilization in industries ranging from paper to plastics and textiles to tires.

Doctoring Systems/Accessories

Doctor blades	Parts and components
Doctor blade holders	Installation and alignment tools
Doctoring systems	Water boxes
Profiling Systems	

Water Management

Spray nozzles	In-line filters
Oscillating showers	Filter media
Stationary showers	Multiple barrel pressure filters
Traversing showers	Strainers
Mist eliminators	Forming systems and blades
Wear Surfaces	

Stock Preparation

Bleaching	Pulping
Cleaning	Pulp Washing
Deflaking	Recausticizing
Dissolved Air Flotation	Screening Systems
Deinking	Thickening
Heat Transfer	Woodyard

Fluid Handling

Rotary joints and unions	Vacuum breakers
Syphon systems	Steam and air separators
Thermocompressors	Steam-powered pumps
Desuperheaters	Sight flow indicators
Steam systems	Flexible metal hose
Dryer management system	Turbulator bars
