

FGM - experts on

- Rolls production (steel, aluminum, carbon & glass fiber reinforced plastic etc.)
- Surface coating (rilsan, chrome, nickel, ceramic, teflon, tungsten carbide etc.)
- Made-to-measure rubber coating from all available elastomer
- Corrugated rolls manufacturing and refurbishment all brands and profiles
- Complete machines production (for instance Offset printing machine, Peters Multi Star)

Corrugated Rolls

Chrome (Gradur)

- Hardness: 980 HV
- Superior smoothness
- Easy to operate

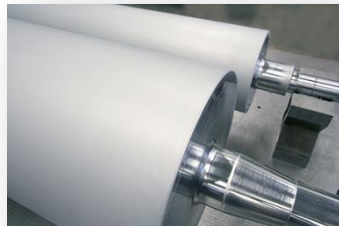

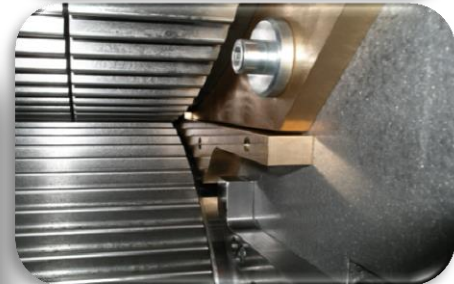

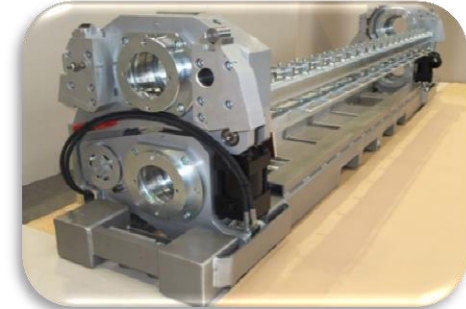

Tungsten carbide (TCC)

- Hardness: 1250 HV
- Highest wear resistance
- Superfinish is obligatory
